

321—24.31(231D) Nurse review. A program that administers prescription medications or provides health care professional-directed or health-related care shall provide for a registered nurse to:

24.31(1) Monitor, at least every 90 days, each participant receiving program-administered prescription medications for adverse reactions to program-administered medications and make appropriate interventions or referral, and ensure that the prescription medication orders are current and that the prescription medications are administered consistent with such orders at least every 90 days or after a change in health status; and

24.31(2) Ensure that health professionals' orders for participants receiving health care professional-directed care from the program are current; and

24.31(3) Assess and document the health status of each participant, make recommendations and referrals as appropriate, and monitor progress on previous recommendations at least every 90 days or if there are changes in health status; and

24.31(4) Provide the program with written documentation of the activities, as set forth in 24.31(1) through 24.31(3), showing the date, time and signature.
